Table Talk Monday
The Era of GMO Animals

Over more than 25 years of development, genetically modified salmon became available in Canadian supermarkets this past August. How and why were these fish made? What does this mean for the future of animal-based food? Join us for a discussion on the benefits and potential challenges associated with GMO animals, as well as how they are engineered and the regulatory approval process currently in place. Please contact GRF Tyler (tdm76) for more information. Article with background information: https://tinyurl.com/ybyaoby5
